Subject: Andy Huynh

Good Afternoon Nancy,

Andy Huynh's average water usage is 5,000 gallons a month. He has had excess water usage the last 2 months, due to an outside faucet that was on and he could not get it off. The excess for the November reading was 9,000 and the excess for the December reading was 14,000. The total excess usage is 23,000 x \$5.43, the current residential sewer rate, for a total of \$124.89. Please let us know if the council agrees to issue the credit on his bill. Thanks Laurie

At the December 19th Council meeting Council voted to credit Andy Huynh's Sewer bill in the amount of \$87.00. There is an additions \$37.89 recommended to be credited to his account.
