City of
Blue Earth

The earth so rich the city grows

March 18, 2019

To: Reroofing Building Permit recipients

From: Steve Anderson, Building Official

Re: Reroofing inspection process.

New for 2019 will be the requirement of photos to be taken of the reroofing project at certain stages of the project.

1. At the stage where the shingles have been removed and the roof is bare.
2. When ice shield has been installed on eaves and valleys.
3. When the roof is completed.
4. At least 1 photo of the front façade of the house where the house numbers are visible.

When roof is completed return printed photos to City Hall along with the original inspection card. The inspection card will be signed and dated and be available for the home owner to pick up if they wish to. Please make a note on the inspection card if they will be picked up along with contact name and phone number to call. Please do not send pictures via email to city offices.
