## LINDA'S TIDBITS

September is a welcoming Autumn month. It is the transition time of the end of summer and the beginning of a new season. Fall is a beautiful time of the year with the leaves changing different colors and the temperature is cooler. This is a good time for being outdoors. Nothing can relax and rejuvenate more than enjoying nature and the surrounding scenery. People are working in their gardens getting food ready for winter. The colorful scenery creates a sense of comfort, warmth and reflection. The leaves will be changing from green to orange, red, brown and yellow. Life is an amazing thing. The beauty is one of the things that separates human from animals. We need the beauty and it seems to make people

happier, and more cheerful when It's cooler outside. The happier people are to see each other, the more grateful they are for what they have and the quicker they are to help someone in need. This makes the world a better and more loving place for everyone. Now is the time to encourage everyone to stay safe. Remember we are all in this together and hopefully soon things will go back to normal.
